

Case Study

THI GROUP

Solutions for the hospitality industry

THI GROUP, two brands one mind

The THI GROUP is a hospitality business that includes two important names in the Italian hospitality, THI Collection and THOTEL Group. Since 1991, THI Collection, has expanded to 11 luxury hotels and resorts, and offers prestigious hospitality, bringing together tradition and innovation, elegance, comfort, functionality and technology. The THOTEL Group is a new hotel company to the Italian market. Easy to find, they are located in major cities near major urban roads and highways. THOTEL's hospitality is relaxed and informal for a dynamic clientele, that appreciate comfort, functionality and quality service. A number of THI Group hotels have benefitted from Johnson Controls technology and functionality for air conditioning and room automation.
