

# Network Thermostat Controllers

TEC2000

The TEC2000 Series Thermostat controllers from Johnson Controls meet your need for a cost-effective networked small equipment controller by providing more N2, BACnet® MS/TP and LonWorks® communicating options. ZigBee® Wireless TECs are available and operate in conjunction with a BACnet MS/TP or BACnet IP Coordinator. It offers equipment control from a single product: thermostat, controller and temperature sensor.

The TEC Series staged controllers can be used with rooftop units (with and without economizers), heat pumps and single and multi-stage heating/cooling equipment.

The TEC2x45, TEC2xx6 and TEC2xx7 Series controllers are available for commercial and hospitality applications, including cabinet unit heaters, perimeter heating/cooling, zoning and fan coil units. They provide control of various two and four-pipe fan coil equipment, and have options for one to three speeds of fan control. They offer additional application flexibility by providing advanced control signals – proportional, 0 to 10 VDC, on/off, or floating – and dehumidification capabilities.

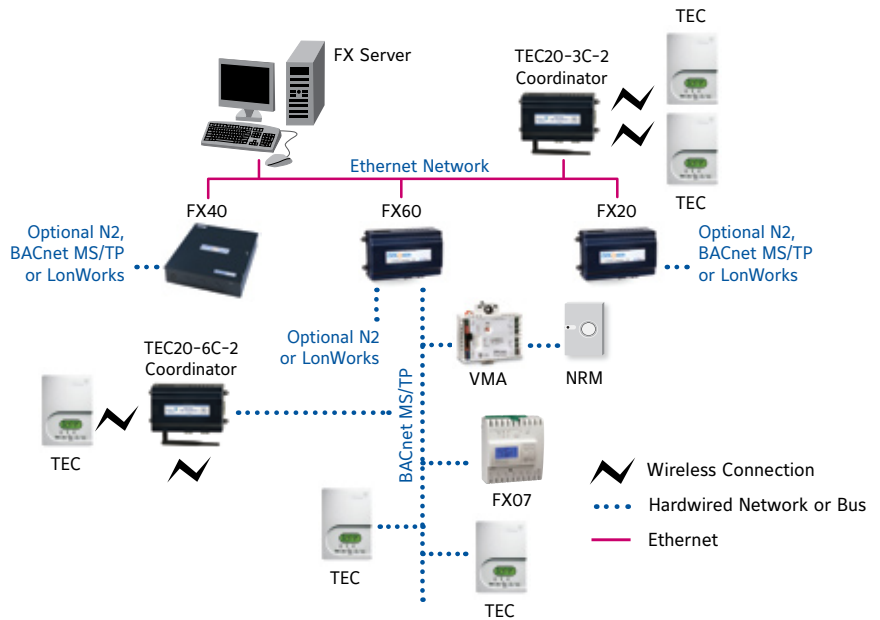

- Easy-to-read, aesthetically pleasing backlit LCD display
- Two configurable binary inputs for advanced functions
- Over 20 configurable parameters enable the thermostat to be customized for any application
- Easy to install by consolidating into one device; control strategies, temperature and humidity sensing, and thermostat control
- BACnet, ZigBee, LonMark and N2 communications

# FX NETWORK THERMOSTAT CONTROLLERS

TEC2x45-2  
TEC2xx6-2

TEC2xx7-2

Product Code	Control	Fan Control	Model Type	Application		
TEC2x45-2	One Output Proportional 0 to 10 VDC	One-Speed	Commercial	Commercial two-pipe equipment, cabinet unit heaters, and perimeter heating/cooling		
TEC2x16-2	Two Outputs On/Off	1, 2 or 3-Speed			Two or four-pipe fan coil equipment	
TEC2x26-2	Two Outputs On/Off or Floating					
TEC2x36-2	Two Outputs On/Off or Floating and Dehumidification					
TEC2x46-2	Two Outputs Proportional					
TEC2x56-2	Two Outputs Proportional and Dehumidification					
TEC2x16H-2	Two Outputs On/Off					Hospitality
TEC2x26H-2	Two Outputs On/Off or Floating					
TEC2x36H-2	Two Outputs On/Off or Floating and Dehumidification					
TEC2x46H-2	Two Outputs Proportional					
TEC2x56H-2	Two Outputs Proportional and Dehumidification					
TEC2x27-2	Two Outputs On/Off or Floating	None	Commercial Nonprogrammable	Two or four-pipe equipment, hydronic reheat valve control, and pressure dependent VAV with or without local reheat		
TEC2x47-2	Two Outputs Proportional					
*TEC2x01-3	Single Stage	On, Off or Auto	Commercial Nonprogrammable	Fan coil unit, unit heaters, and single-stage packaged heating/cooling equipment		
*TEC2x02-3	Heat Pump			Heat pump with up to 3 heating/2 cooling stages		
*TEC2x03-3	Multi Stage			Multi-staged packaged heating/cooling stages		
*TEC2x04-3	Economizer			Packaged rooftop units with economizers		
TEC2261-3	Single Stage			Commercial LonWorks Programmable	Fan coil unit, unit heaters, and single-stage packaged heating/cooling equipment	
TEC2262-3	Heat Pump		Heat pump with up to 3 heating/2 cooling stages			
TEC2263-3	Multi Stage		Multi-staged packaged heating/cooling			
TEC2264-3	Economizer		Packaged rooftop units with economizers			

Note: x = "0" for ZigBee wireless communication (Note: A TEC Coordinator will be needed to operate wireless TECs) x = "1" for N2 open communication  
 x = "2" for LonWorks® communication x = "6" for BACnet MS/TP communication \* For BACnet® MS/TP these product code numbers end with "2", not "3".

LonWorks® is a registered trademark of Echelon Corporation.  
 BACnet® is a registered trademark of the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE).  
 ZigBee® is a registered trademark of the ZigBee Alliance.
