

Johnson Controls Institute Course

Metasys® Workstation Job-Aid (P82)

Help reinforce the learning your employees experienced at the Metasys® Facility Operators course by providing them with a monitor mounted visual that gives easy, instant access to the steps required to perform a task on Metasys® software. New hires will also benefit from this simple, easy-to-use job-aid as they learn how to interact with the Operator Workstation. (©2000 Johnson Controls, Inc.)

This "*quick method of memory refreshment*" will:

- Increase productivity from employees.
- Provide a better return on your training investment.
- Improve management of your facility.

Using it will increase employee proficiency on the job by:

- Spending less time at the computer to accomplish the job.
- Taking advantage of more of the PMI capabilities.
- Increasing their comfort level with the Johnson Controls Building Automation System.

This valuable tool comes conveniently packaged in groups of four or eight job-aids.

Cost: \$29.95 - set of four, \$49.95 - set of eight
