

## Product Security Advisory

**December 22, 2021**

JCI-PSA-2021-21  
CVE-2021-36199  
ICSA-xx-xxx-xx

### Overview

Johnson Controls has confirmed a vulnerability impacting American Dynamics VideoEdge. VideoEdge is a high-performance Network Video Recorder that supports multi-channel audio and video. Running a vulnerability scanner can cause denial-of-service from VideoEdge. Users should update their VideoEdge with a hot fix or upgrade to version 5.9.

### Impact

Running a vulnerability scanner against VideoEdge NVRs can cause some functionality to stop.

### Affected Versions

- VideoEdge versions 5.4.1 to 5.7.1.

### Mitigation

- Update VideoEdge with hot fix for versions 5.4.1 to 5.7.1.
- Upgrade VideoEdge to version 5.9.
