

Portable Fire Extinguisher Maintenance Programs

Your fire extinguishers symbolize safety, but will they function when you need them?

In a fire, portable extinguishers are an important first line of defense. You depend on them to protect precious lives, property and assets. Fire extinguishers that don't work create a false – and potentially hazardous – sense of security.

With Tyco SimplexGrinnell, your fire extinguishers are more than a symbol, they're protection.

Tyco SimplexGrinnell performs inspection, testing, maintenance, recharge and repair of your portable fire extinguishers. The result? Dependability.

Tyco SimplexGrinnell Portable Extinguisher Programs – Choose the One That's Right for You

We offer two progressive Portable Fire Extinguisher Service Programs – the Tyco SimplexGrinnell Platinum Portable Maintenance Agreement and Tyco SimplexGrinnell Extinguishers Plus.

With both programs, our professional, factory-trained and fully equipped technicians provide a 28-point

assessment of each fire extinguisher in your facility.

For one low price, we comprehensively assess, maintain and service each of your units. The work we perform includes: mounting, verification, repair, self-adhesive signage, recharging, internal maintenance and hydro testing as necessary. With the Tyco SimplexGrinnell portable extinguisher programs, you get a single invoice, delivered once a year, that covers all your locations. That means you receive complete, professional service and maintenance – and no unexpected charges.

At the time of inspection, we also give special consideration to:

- the nature of the combustibles or flammables that might ignite.
- the potential severity (size, intensity and speed of travel) of any resulting fire.
- the suitability of the fire extinguisher for the environment.
- the effectiveness of a fire extinguisher on the hazard.
- the ambient temperature and other specific atmospheric conditions (wind, draft).

Customer Benefits:

- // Choose the program that's right for you
- // 28-point assessment of each fire extinguisher in your facility
- // Mounting, verification, repair, self-adhesive signage, recharging, internal maintenance, and hydro testing as necessary

- any anticipated adverse chemical reactions between the extinguishing agent and burning materials.
- facility conditions and frequency of service.

The Tyco SimplexGrinnell Platinum Portable Maintenance Agreement covers:

- annual maintenance of units.
- assurance that portable extinguishers meet federal and local fire codes.
- a 28-point assessment to assure proper operation of the unit.
- periodic maintenance and hydrostatic testing to include complete tear down, when necessary.
- recharging of units and service calls.
- parts, including valve stems, o-rings, seals, pins, decals, etc.
- an extinguisher sign for easy identification.
- one price based on the number of units.

Tyco SimplexGrinnell Extinguishers Plus is even more comprehensive, offering all of the above, plus:

- Tyco SimplexGrinnell state-of-the-art extinguisher equipment.
- no initial capital investment.
- the ultimate in worry-free extinguisher performance.

Be prepared with a Tyco SimplexGrinnell portable extinguisher service program.

You can count on Tyco SimplexGrinnell for professional care of your portable fire extinguishers. From coast to coast, our service technicians provide comprehensive maintenance and service, always exceeding industry standards, to ensure your portable fire extinguishers function when you need them.

Advancing safety and security with smart, customized solutions
