

# Physical Access Control for K-12 Education

Close dangerous vulnerability gaps

Weapons. Drugs. Vandalism. Predators. These are just a few of the threats schools tackle daily. Johnson Controls has empowered thousands of administrators to take back control with world-class physical access solutions.

We can help you reduce dangerous vulnerabilities by fortifying your school buildings and surrounding grounds with physical access control structures that protect against unauthorized people, vehicles, explosives and other threats.

From simple steel doors to advanced pop-up barriers plus other reinforcements, Johnson Controls has the depth and breadth of solutions to fit every specialized need. Safeguard your people – and your peace of mind.

## Extensive solutions, designed to fit many diverse needs:

- K-Rated fences and gates
- Pop-up vehicle barriers to prevent entry/exit
- Sally ports and mantraps
- Traffic barricades

## Johnson Controls has extensive K-12 security experience:

- Large public districts with multiple schools
- Parochial, charter and other private schools
- Urban, suburban and rural locations
- Expertise in securing funding

## ABOUT JOHNSON CONTROLS BUILDING TECHNOLOGIES & SOLUTIONS

Johnson Controls Building Technologies & Solutions is making the world safer, smarter and more sustainable – one building at a time. Our technology portfolio integrates every aspect of a building – whether security systems, energy management, fire protection or HVACR – to ensure that we exceed customer expectations at all times. We operate in more than 150 countries through our unmatched network of branches and distribution channels, helping building owners, operators, engineers and contractors enhance the full lifecycle of any facility. Our arsenal of brands includes some of the most trusted names in the industry, such as Tyco®, YORK®, Metasys®, Ruskin®, Titus®, Frick®, PENN®, Sabroe®, Simplex® and Grinnell®.
