

Everbridge High Velocity Critical Event Management

The comprehensive platform to strengthen
organizational agility during critical events

Why Critical Event Management (CEM) matters

From geopolitical threats to natural disasters to cybersecurity attacks, security leaders must account for new and emerging risks. Without resilience plans and principles in place, organizations risk operating in the dark with low threat anticipation, slow responses and limited insights.

Together with Everbridge High Velocity CEM, Johnson Controls is ready to empower organizations with the tools and strategies needed to stay prepared, respond effectively and ensure the safety of their people and assets.

Earlier threat detection

Get real-time insights on new threats to quickly identify risks to people and operations.

Faster response.

Once-click responses with clear communications help keep employees safe and businesses protected.

Continuous improvement

Detailed after-event reports and analytics empower stronger resilience in the future.

Real economic impact

A quantitative survey from Forrester of current Everbridge customers concluded a three-year financial impact from its CEM platform*:

- 358% ROI
- \$2M Lowered IT downtime
- \$1.1M reduced losses from business interruption
- Less than 6 months for payback
- \$3M in efficiency gains
- \$2M saved in reduced IT downtime
- \$1.5M in security team productivity gains

Managed CEM with Johnson Controls

By combining the Everbridge 360 platform with Johnson Controls Security Operations Centers, organizations can protect their people and business around the clock—without the need for dedicated internal staff or resources to maintain coverage.

Choose from two service options: Professional and Enterprise. Both plans are tailor-made for organizations that require continuous coverage to monitor risks and deliver critical information, lack personnel to do so, understand the ROI of CEM and desire reliable procedures to manage events.

Compare managed CEM plans

Professional

- ✓ 24/7 Critical event management
- ✓ Platform administration
- ✓ 24/7 Employee safety helpdesk
- ✓ Standard operating procedures (sops)
- ✓ Testing and drills
- ✓ Automated workflows

Enterprise

- ✓ 24/7 Critical event management
- ✓ Platform administration
- ✓ 24/7 Employee safety helpdesk
- ✓ Standard operating procedures (sops)
- ✓ Testing and drills
- ✓ Automated workflows
- ✓ Customized communication templates and orchestration workflows
- ✓ Add-on services: travel protector, travel assist, physical security, signal, business continuity

Trust Johnson Controls unparalleled track record

With a global security footprint, 140 years in the security industry and a suite of tailored services like Security Operations Centers (SOC), Johnson Controls provides comprehensive solutions to protect people, facilities and assets. By adding Everbridge to your operations, we can help businesses, governments, universities and healthcare providers:

- Assess with hyper-relevant threat intelligence.
- Locate people at risk and available responders.
- Act and respond through automated alerting and communications.
- Analyze progress in real time and automate data collection for postmortem debriefing.
