Holistic solutions designed for an airport

Buildings Management & Energy Efficiency
Make your airport facilities smarter with our automation system, integrated and energy efficient solutions.

- Building Management System
- Room Controls, Valves, Sensors, Actuators
- Energy & Cleaning Management
- Maintenance Management System
- Energy Storage
- Hybrid Cooling Systems, Chillers
- Network Energy Management
- Combined Heating & Power Unit
- Smart Lighting
- Technical Alarms
- Air-Handling Unit
- Rooftop Evaporators, Cooling Towers
- Energy Efficiency Kiosk
- Heat Pumps
- Energy Management
- Building Management System
- Room Controls, Valves, Sensors, Actuators
- Energy & Cleaning Management
- Maintenance Management System
- Energy Storage
- Hybrid Cooling Systems, Chillers
- Network Energy Management
- Combined Heating & Power Unit
- Smart Lighting
- Technical Alarms
- Air-Handling Unit
- Rooftop Evaporators, Cooling Towers
- Energy Efficiency Kiosk
- Heat Pumps

Communications
Enable seamless communications around your facilities.

- Passenger Information App
- Wireless Networks
- Radio Systems
- Public Address
- Passenger Help Point
- Digital Signage

Security
Ensure passenger and asset security all the time.

- Operations Centre
- Contractor Management
- ANPR
- Cyber Security
- Retail Systems
- Queue Monitoring
- Body & Baggage Screening
- Video Surveillance
- Face Recognition
- People Counting
- Abandoned Bag Detection
- Access Controls (Doors, Elevators, Airbridges)
- Automatic Gate Controls
- Car-Park Management
- Perimeter Protection

Fire Protection
Protect life and assets.

- Incident Management
- Voice Alarms
- Clean-Agent Fire Suppression
- Smoke & Gas Detection
- Digital Addressable Fire Panel
- Water Distribution, Control & Pumps
