

Physical access control for safer, smarter communities

Close dangerous vulnerability gaps for secure, connected, and resilient communities

Weapons. Drugs. Vandalism. These are just a few of the threats you tackle every day in your community. Johnson Controls has empowered thousands of local government administrators to take back control with world-class physical access solutions.

We can help you reduce dangerous vulnerabilities by fortifying your municipal buildings and surrounding grounds with physical access control structures that protect against unauthorized people, vehicles, explosives, and other threats.

From simple steel doors to advanced pop-up barriers, plus other reinforcements, Johnson Controls has the depth and breadth of solutions to meet the specialized needs of your community. Safeguard your citizens – and your peace of mind.

Extensive solutions designed to fit many diverse needs:

- K-rated fences and gates
- Pop-up vehicle barriers to prevent entry/exit
- Sally ports and mantraps
- Traffic barricades

Johnson Controls has extensive experience delivering physical access control:

- Large municipalities with multiple types of buildings
- High volume and significance sites such as courthouses, police stations, prisons and transportation hubs
- Urban, suburban, and rural locations
- Expertise in securing funding

Physical access control experts

You're assured of worry-free installation, service, and support – start to finish
