**Statement of Continued Support**

*Message from George Oliver, Chairman and Chief Executive Officer*

Our employee purpose is to power our customers’ success and protect the environment. With a global team of 105,000 experts in more than 150 countries and over 130 years of innovation, our employees create innovative, sustainable, clean products and services that empower customers and communities to consume less energy and conserve resources. At Johnson Controls, we transform the environments where people live, work, learn and play. From optimizing building performance to improving safety and enhancing comfort, we drive the outcomes that matter most.

We grow our business by providing sustainable products and services, improving operational effectiveness, empowering our people, and reducing the environmental footprint of our operations and supply chain. We believe that through leadership in sustainability, Johnson Controls creates long-term benefit for our customers, employees, shareholders, and society as a whole.

Since Johnson Controls first signed the United Nations Global Compact in 2004, we have remained steadfastly committed to aligning our operations and strategies with the Compact’s Ten Principles, which are universally accepted and cover human rights, labor, health and safety, the environment and anti-corruption. I recently joined CEOs around the world in signing the Statement on the Purpose of a Corporation, including a commitment to protect the environment by embracing sustainable practices across our business. We also announced several ambitious commitments at the 2019 United Nations Climate Action Summit in New York – working to help limit climate change and increase global prosperity.

For more than 130 years, Johnson Controls has made sustainability an integral part of our business through our vision and values. It is the dedication and hard work of our employees around the globe that enable us to achieve our sustainability goals and deliver on our vision of a safe, comfortable and sustainable world. More about Johnson Controls’ sustainability initiatives, commitments, and achievements is available at [https://www.johnsoncontrols.com/corporate-sustainability/reporting-and-policies](https://www.johnsoncontrols.com/corporate-sustainability/reporting-and-policies).

George Oliver
Chairman and Chief Executive Officer
Johnson Controls
UN Global Compact Reporting

Johnson Controls was an early signatory and is a current member of the United Nations Global Compact. We are committed to the Compact’s Ten Principles and operate accordingly.

We fully support: the United Nations Global Compact’s Ten Principles which are based on The Universal Declaration of Human Rights; The International Labor Organization’s Declaration on Fundamental Principles and Rights at Work; The Rio Declaration on Environment and Development; The United Nations Convention against Corruption; and the United Nations Framework on Business and Human Rights.

As part of Johnson Controls’ commitment to support the Compact’s Ten Principles, we have updated our Communication on Progress (COP) Report as well as met each of the 21 criterion required to achieve “Advanced Level” status. Our COP Report provides details on how we are implementing the Ten Principles, addressing the United Nations Sustainable Development Goals and meeting many, if not most, best practices under each criterion relevant to our company.

In addition to posting our COP Report on the UN Global Compact website, we also post it on our public website, along with our most recent Non-Financial Report and other Annual Meeting Materials, our 2019 Sustainability Report, Ethics Policy, and Human Rights and Sustainability Policy.
## Human Rights

<tr>
<td><strong>Principle 1:</strong> Businesses should support and respect the protection of internationally proclaimed human rights.</td>
<td>In accordance with our Code of Ethics and Human Rights &amp; Sustainability Policy, we are committed to providing safe and healthy workplaces and operating in a manner that protects human health and environmental quality in our communities. To protect our communities and the environment, we set the same high standards for our environmental performance at all our locations around the world. Johnson Controls expects its suppliers to conduct their operations in a socially and environmentally responsible manner. In addition to cost and quality, social and environmental performance is used to select and retain suppliers. We were recently named a World’s Most Ethical Company, one of the 100 Best Corporate Citizens, and Fortune Magazine named Johnson Controls to its Change the World list.</td>
<td>Non-Financial Disclosure Report 2019 2019 Sustainability Report and GRI Index (JCISR) Conflict Minerals Report demonstrates our commitment to sourcing conflict minerals responsibly and complying with the U.S. Securities and Exchange Commission’s rules and regulations surrounding conflict minerals. Slavery and Human Trafficking Policy makes explicit our commitment to ensure that slavery and human trafficking is not taking place in any part of our business or supply chain. Human Rights &amp; Sustainability Policy specifically states our commitment to the Compact’s 10 Principles and how we abide to the principles and related global standards. Values First, the Johnson Controls Code of Ethics applies to everyone at Johnson Controls, including the Board of Directors, company officers, employees, agents and contract workers. It is intended to promote a common understanding of right and wrong. It puts our Values First and provides examples of our values in action.</td>
<td>Employee Development, Training and Education: GRI 412-2 (JCISR pages 42, 49, 53 – 59, 93, 126) Communication and Training about Human Rights, Anti-Corruption Policies and Procedures: (JCISR pages 69 – 72, 96, 99,113) Security Personnel Trained in Human Rights Policies or Procedures: GRI 410-1 (JCISR pages 95, 131, 133) Leadership in Human Rights Reporting: GRI 412 (JCISR page 98) Human Rights: GRI 412 (JCISR pages 62-63) UN Global Compact: (JCISR pages 62 and 138) Risk Management and Operations: Assessed for risks related to corruption (JCISR page 96, 133, 134) Environmental and Social Oversight Protocols for Suppliers: GRI 102-9, 412-3 and 414-2 (JCISR pages 60 - 61, 96, 104, 133, 134) Integrity Helpline: Formal grievance mechanism (JCISR page 67) Community Engagement: GRI 203 (JCISR pages 44 - 47)</td>
